Work Management Platform

UI Wireframes

Low-fidelity screen wireframes for technology & development planning

Prepared for: SIHL Technology Team

Companion to: SIHL WMP Business Requirement Specification (BRS) v1.0

Date: 18 August 2026

INTERNAL - MANAGEMENT DISTRIBUTION

Wireframes are structural (layout, fields, states) - not visual design.

Colors, typography and branding are intentionally omitted; see Frontend/UX design phase.

How to read these wireframes

Reference guide

Notation used across all screens

Solid box
Fixed UI component (present on every load)

Dashed box
Dynamic / data-driven placeholder (chart, list)

Gray fill + lines
Placeholder body text / paragraph content

Button

Filled button
Primary action (one per view, typically)

Button

Outline button
Secondary action

Badge

Pill / badge
Status, priority, or tag chip

1

Numbered marker
Cross-reference to BRS requirement (see footnotes)

Circle
Avatar, icon, or status dot placeholder

Scope of this set

- Eight screens covering the MVP + early Phase 2 surface area: employee, manager and executive views.
- Each screen header cites the relevant BRS section and Appendix A requirement IDs (e.g. TM-FR-005) for traceability.
- Field lists, table columns and states shown are illustrative of structure and completeness, not final copy or exact ordering.
- High-fidelity visual design (colors, type, spacing, SIHL brand system) is a separate design-phase deliverable that follows BRS sign-off.
- Source: SIHL WMP Business Requirement Specification (BRS) v1.0, Sections 13-15 and Appendix A.

Draft — Assigned — Accepted — **In progress** 1 — Completed — Verified — Closed

Monthly SEBI compliance filing

2

CHECKLIST (3/4)

- [x] Pull trade data extract
- [x] Reconcile against ledger
- [x] Draft filing note
- [ ] Compliance Head review

ACTIVITY & COMMENTS

R. Mehta
marked checklist item 'Draft filing note' complete - 2h ago

System
SLA reminder sent (T+4h, Critical) - 3h ago

A. Desai
commented: "please attach the reconciled ledger export" - 5h ago

Add a comment... @mention

PRIORITY
Critical

DUE DATE
22 Aug 2026

ASSIGNEE
R. Mehta

REVIEWER
A. Desai (Compliance Head)

PROJECT
- (standalone)

SOURCE
Recurring - Monthly SEBI filing template

DEPARTMENT
Compliance

RACI

Accountable	A. Desai
Responsible	R. Mehta
Informed	CFO

DEPENDENCIES

Blocked by: Ledger close (Ops)

Mark as completed

Reassign / delegate

1 Status stepper - configurable per Task Type; not every task requires Verified, Section 14.1.
2 Checklist gate - task cannot complete until all items checked or waived, TM-FR-006.

Kanban board

Weekly recon draft

Medium

VERIFIED

Vendor onboarding checklist

Low

Q2 audit response

Critical

1 Blocked column - each card requires a blocking reason and dependency owner, Section 15.7 / TM-FR-029-032.

Team workload - Manager

Sec. 15.14 | TM-FR-051-053

OPEN TASKS	OVERDUE	CRITICAL	AVG CAPACITY USED [1]
38	6	4	82%

Team member	Department	Open	Critical	Overdue	Workload (open vs. capacity)	Action
R. Mehta	Compliance	9	2	1		Reassign
S. Nair	Operations	6	0	0		Reassign
A. Kapoor	Technology	11	1	3	over	Reassign
P. Iyer	Support	5	0	1		Reassign
A. Desai	Compliance	7	1	1		Reassign

[1] Capacity is a configurable weekly effort budget; over-allocation is a visual flag, not an auto-block, Section 15.15.

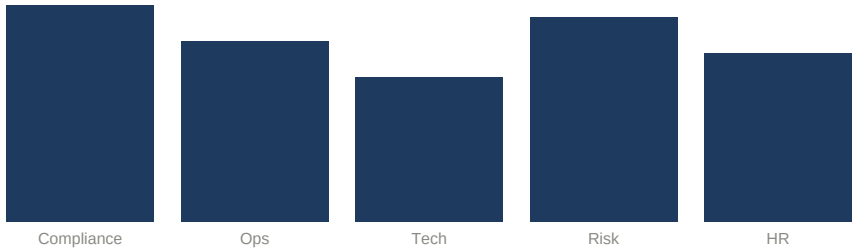
Enterprise MIS dashboard - CEO / CXO

Sec. 15.16 | TM-FR-054-058

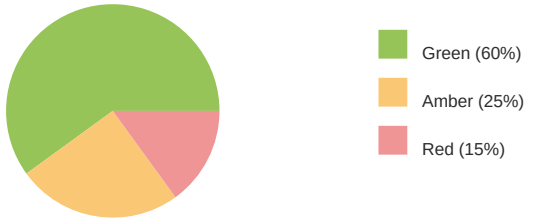
Enterprise > Function > Department > Employee [1]

COMPLETION %	ON-TIME %	SLA BREACH %	CRITICAL OPEN	BLOCKED	MGMT. COMMITMENT ADHERENCE
87%	81%	6%	14	9	92%

Department performance (on-time % by dept.)



Project health distribution



DRILL-DOWN: DEPARTMENTS

Department	Open	Overdue	SLA breach %	Critical	Health
Compliance	22	1	3%	2	Green
Operations	34	4	9%	3	Amber
Technology	41	6	11%	5	Amber
Risk	12	0	1%	1	Green

[1] Drill-down respects role/document permissions at every level, TM-FR-055-056.

Project view - New NRI F&O product

Sec. 15.4 | TM-FR-012-016

New NRI F&O product

Amber (1)

OWNER	SPONSOR	PM
Product Head	CXO	A. Kapoor

Overview | **Tasks** | Gantt | Team | Risks

MILESTONES

API complete — UI complete — UAT sign-off — Compliance approval — Go-live

TASKS (WITH DEPENDENCIES)

Task	Depends on	Owner	Priority	Status	RACI-A
A - API development	-	Tech Lead	High	Verified	PM
B - UI development	A	Tech Lead	High	In progress	PM
C - UAT	B	A. Kapoor	Critical	Blocked	PM
D - Compliance approval	C	Compliance	Critical	Assigned	Compliance Head
E - Production release	D	Tech Lead (2)	Critical	Draft	CTO

1. Project health (Green/Amber/Red) is auto-calculated, PM can override with a mandatory comment, TM-FR-013.
2. Task E cannot start until D is complete - Finish-to-Start dependency enforced, TM-FR-029.

Recurring task template - Setup
